Services:

Mining & Engineering Supplies
Energy Supplies & Transportation

Introduction And Background

Industry plays an important role in keeping the wheels of the economy turning and as such it is equally important to ensure its smooth running and allow it to expand by also enhancing its efficiency. It is with this in mind that Inductoserve was founded, to provide a concrete back up platform for industry and to supply electrical, mechanical engineering, mining, manufacturing, farming, municipalities and government departments.

Our clients include small, medium to large corporate companies and government departments within South Africa and SADC countries.

Product Range

- Mechanical spares and Equipment
- Electrical Switchgear and Instrumentation
- Lubricants
- Steel
- Personal Protective Equipment
- Welding Machines and Consumables

Mechanical spares and Mining equipment

Mining Process Plant Maintenance Spares

- Caterpillar spares
- Bell spares
- Liebherr spares
- Any other earth moving equipment spares
- Gearboxes
- Rollers and conveyor belts
- Pumps
- Valves
- Bearings
- Conveyor belts
- Furnace hoses + fittings
- Rubber lining
- Crushers spares and equipment
- Crane spares
- Power Tools
- Belt Fastners
- Bolts
- Screens

Pumps

- Warman
- Sulzer
- KSB
- Borehole pumps
- Gate Valves
- Diaphragm Valves
- Butterfly Valves
- Knife Gate Valves Steel

Bolts

We are distributors of standard and special bolts and nuts.

Bearings

We supply various types and sizes of bearings in the following brands:

- NSK • SKF • FAG • TIMKEN

High pressure and heat resistant hoses and Ceramic Linings

- Rubber hose
- Thermoplastic hose
- Furnace hoses
- PTFE (Teflon)
- Hydraulic fittings
- Stainless steel flexible metallic hose
- Burst buster
- Adaptors
- Ceramic Lining

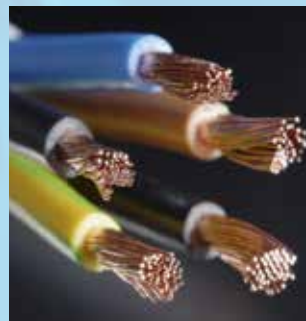

Cables

Inductoserve is a major cable supplier to the manufacturing, computing, telecommunications, electricity generating and transmission industries and domestic use. All our manufacturers meet SABS and ISO standards.

Electrical Switchgear and Instrumentation

We offer excellent delivery service on the following:

- Cutler Hammer – Appointed Distributor
- Siemens
- Klockner Moeller
- Fluke Test Equipment
- Circuit protection devices

- Other Switchgear
- AC Conductors, Overload Relays
- Pushbuttons
- Variable speed drives
- Crane controllers
- Belt trip switches
- Liquid level control

Motors

We supply electric motors in the following range:

- Cast iron cage motors(single and three phase)
- Explosion proof motors
- Slip –ring induction motors(standard and crane duty)

Electric Fittings

We supply a wide range of lighting products that include:

- Fluorescent Fittings and Tubes
- Incandescent lamps and Fittings
- Energy Saving Lamps and Fittings
- Industrial and Street Lighting

Distribution boards

- Switches
- Sockets
- Circuit Breakers
- Isolators

Lubricants

Products and Services

The company ensures that all products supplied meet the required specifications and standards. In our quest to deliver quality products we continue to strive for operational excellence and consistently meet and exceed the requirements of our customers in a competitive cost effective way. The following products are offered by the company:

- Transportation
- Logistics Management
- Diesel
- Petrol
- Paraffin
- Liquefied Petroleum Gas (LPG)

- LPG Cylinder filling
- Oils and Lubricants
- Bitumen
- Heavy fuel oil

We supply the following brands of Oils and Greases:
Castrol, Sasol, Engen and Interturbine

Personal Protective Equipment [PPE]

Product range

- Overalls and Work suits
- Gloves-Leather and PVC
- Footwear
- Headgear
- Safety spectacles
- Respirators
- Reflective vests and jackets
- Harnesses

Steel

- Mild Steel Plates
- Steel Sections

Angle Irons

- Steel Piping
- Steel Channels
- Round bars
- Brass bars
- Bight steels, EN8, EN9, EN24 etc

Welding Machines and Consumables

- Arc Welding Machines
- Tig/Mig Machines
- Vitmax Rods
- Ferron
- Cast Iron
- Stainless Steel
- Welding Wires
- Cutting Disks
- Grinding Disks

Value Add

- To work as a link between Engineering product manufactures for our clients locally and internationally.
- Change business by doing all the tedious work for our clients so that they can focus on their core business while we ensure that all their various engineering needs are met.
- Ensure that only SABS and other internationally approved products are delivered to our clients.
- Manufacture Some of the volume consumables by our clients especially if they have to be imported.
- Give logistics management as an added value to ascertain timeous delivery and security of supply.
- Have a team of engineers who are constantly being trained and developed in line with the progressive engineering innovations.
- We are specialists and have current knowledge in the engineering fields we cater for.

References

Listed below are some of the companies that we currently do business with:

- Eskom
- Exxaro
- Anglo Platinum
- Mondi
- Sappi
- Mimosa
- Vale
- Kentz
- Bata Shoe company
